

Isolerad PVC-Ridå Insulated strip curtains

Le tende a strisce COIBENT Incold sono studiate per offrire un elevato isolamento termico e ridurre la dispersione di freddo durante le operazioni di carico\scarico nelle celle frigorifere. Sono composte da teli spalmati PVC con interposto un cuscinetto di materiale isolante. Le tende a strisce COIBENT Incold tornano subito in sede e non si appiccicano.

Incold COIBENT strip curtains are designed to offer a high level of thermal insulation and reduce the dispersion of cold during the loading/unloading operations in cold stores. They consist of PVC coated sheets with a bearing made of insulating material placed between. Incold COIBENT strip curtains immediately return to their housing and do not stick together.

Facilità di montaggio, robustezza e bassa manutenzione le rendono una soluzione sempre consigliata sia per temperatura normale che per bassa temperatura. Il loro costo viene ammortizzato velocemente grazie al risparmio energetico.

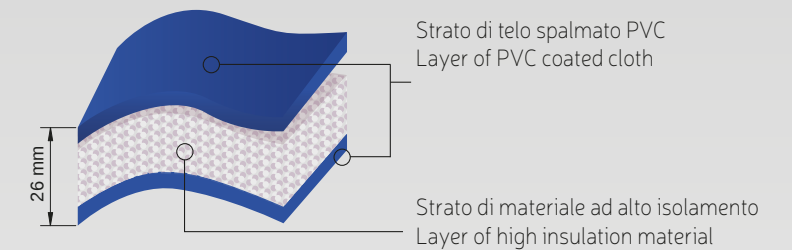

Ease of assembly, solidity and low maintenance le make them a solution that is always recommended both for normal temperatures and low temperatures. Their cost is quickly redeemed thanks to the energy savings.

2 models:

COIBENT 8

COIBENT 26

Le tende COIBENT Incold sono dotate di una sezione trasparente di dimensioni 120x500 mm su ciascuna striscia

Incold COIBENT curtains are fitted with a transparent section of 120x500 cm on each strip

Fissaggio: (rif. part. C):

Le tende COIBENT Incold sono fissate nella parte superiore su una **cremagliera a pettine in acciaio inox**, e **lateralmente** (entrambi i lati) con un **profilo in alluminio a tutta altezza** per garantire la tenuta termica.

Le strisce sono larghe 300 mm e si sovrappongono di 5 cm.

Securing: (ref. detail C)

Incold COIBENT curtains are secured onto the upper part on a **stainless steel finger rack**, and **laterally** (both sides) with a **full height aluminium section** to guarantee the thermal seal.

The strips are 300 mm wide and overlap by 5 cm.

Fixation (réf. part. C) :

Les rideaux COIBENT Incold sont fixés dans leur partie supérieure à une **crémaillère en peigne en acier inoxydable** et **latéralement** (des deux côtés) sur un **profilé en aluminium sur toute la hauteur** pour assurer l'étanchéité thermique.

Les lanières ont une largeur de 300 mm et se superposent sur 5 cm.

Befestigung: (Bezug Teil C):

Die COIBENT-Incold-Vorhänge sind oben an einem **Keilstangenkamm aus Edelstahl** befestigt. Seitlich (zwischen den beiden Seiten) mit einem **Alu-Profil über die gesamte Höhe**, um so die Wärmedichtung zu gewährleisten.

Die Streifen sind 300 mm breit und überlappen sich um 5 cm.
