

MAXIMUM EXPOSURE, DEVELOPED TO HAVE A LOW ENVIRONMENTAL FOOTPRINT

YESSHEIM like TITAN, is the result of Arneg Nordics own product development for the Nordic market. A design that takes full consideration of the latest market trends. This versatile plug-in cabinet highlights the products through minimalistic design, a smart use of transparency and LED-lighting. Yessheim creates a noticeable sales pressure for your items. Designed and produced in Sweden, this plug-in cabinet reduces negative environmental impact through smart solutions and local vicinity.

NORDIC

TRENING

YESSHEIM is the perfect choice for all types of stores, regardless of size. The model is extremely quiet in operation and uses natural refrigerant R290 for low environmental impact

and increased durability. It is an energy efficient model available with two door options. It is ideal for all product categories, only your imagination can set the limits.

Accessories and options:

- 1 Wire- and Plexi dividers
- 2 S/S High gloss interior
- 3 Glass endwall, grey screening
- 4 Mirror end wall, available as black or gray outside screening. Mirror is optional.
- 5 Adjustable Base grid
- 6 Different options of RAL colors are available for the interior, the shelves has an adjustable angle
- 7 Glass endwall, black screening
- 8 Rear kick plinth
- 9 When LED are moved from the bottom of the shelf to the price rail the lightning improves.

YESSHEIM exhibits a large volume of products with a small footprint, above shown with V23 transparent doors – for optimal display of products.

No Tools Needed !

Maintenance is easy. Lift the grille up and out to clean the condenser.

Monthly cleaning contributes to good operating economy and extends a product's lifespan

- a climate benefit for all of us!

Information related to energy class (Ecodesign Regulation 2019/2024 and Energy Labelling Regulation 2019/2018) refers to specific product configurations. All configurations other than that presented in the website could require significantly different energy class information.

For further details, either consult the European Product Database for Energy Labelling (EPREL) or contact our sales office.
